

Connector Workshop Accessories Projects

1. Meter - <https://www.amazon.com/dp/B0B5KVLQ71>

Meter comes with bare wires. Useful accessory to plug in line anywhere you need to determine voltage, power usage, etc. I now have four of these meters. Group buy = \$11.50 each (meter only), add two pair of 45A PowerPoles = \$4.00 (\$2.00 per pair)

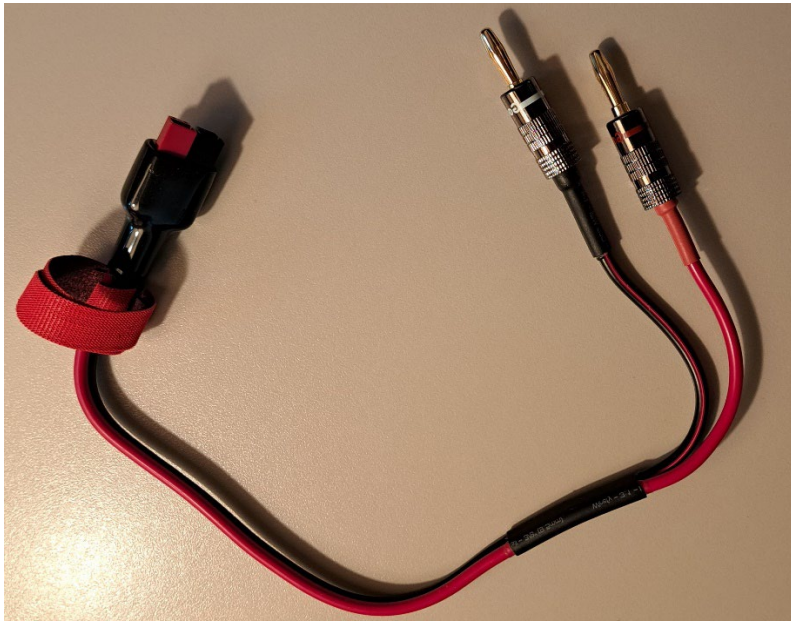

Pictures of one my older versions (2016 vintage):

4. 12V DC Plug Pigtail - <https://www.amazon.com/gp/product/B0090149R0>

Useful accessory for use in car accessory outlet, battery box, battery jump box, etc. Group buy = \$10.00 for a 12V DC Plug. The plug comes with about 16" of cable with ring connectors. You could cut off the ring connectors and add a pair of 30A PowerPoles for \$1.25 and have a ring connector pigtail. Put another pair of 30A PowerPoles on the DC Plug for \$1.25 and add a housing cover for \$.75.

Total = \$13.25 for both a DC Plug Pigtail and Ring Connector Pigtail
